

## TOW HOOKS FOR THE NEW DAILY

Dear Network,

Iveco Accessories has further enriched its product offering, with the new line of tow hook kits for the New Daily, designed to boost vehicle productivity.

**1**

***The Iveco Accessories tow hooks are the same as those used in OEM applications.***

They are type-tested and approved, and respect the same standards of safety, as well as being easy to fit.

**2**

***Iveco Accessories tow hook kits contain all the components you need.***

Inside each kit are the crosspieces, the hook, the hardware and the supports, when these are required.

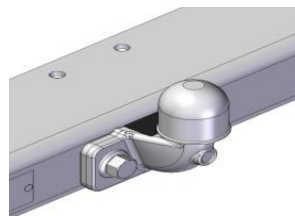

**3**

***In Iveco Accessories kits, the hook is already fitted onto the crosspiece.***

This allows you to guarantee speedy assembly to your customers

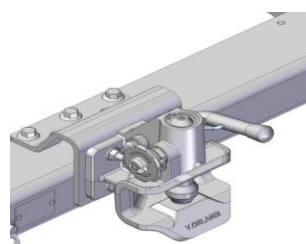

The tow hook kits are available in two versions:

## ***Spherical tow hook kits***
